Volume 10 No. 31

April 2000

TO: Physicians and Independent Clinics
Health Maintenance Organizations – For Information

SUBJECT: Updates to the Second Surgical Opinion Program

EFFECTIVE: Immediately

PURPOSE: To provide physicians and independent clinics with an updated list of elective surgical procedures which require second surgical opinions and reflect the additions and deletions in the 2000 Physicians' Current Procedural Terminology (CPT)

BACKGROUND: The New Jersey Division of Medical Assistance and Health Services (DMAHS) requires that a Medicaid and NJ KidCare-Plan A beneficiary who is not enrolled in managed care receive a second surgical opinion before certain elective procedures are performed. A second surgical opinion must be provided by an approved Second Surgical Opinion Physician. A Medicaid or NJ KidCare-Plan A beneficiary arranges for a second surgical opinion by calling the Second Surgical Opinion Hotline at 1-800-676-6562. Board-certified specialists in the appropriate fields (ENT, General Surgery, Pediatrics, Neurology, Neurological Surgery, OB/GYN, or Orthopedics) who wish to become Second Surgical Opinion providers may do so by contacting the following address for an application:

Unisys
Attention: Second Surgical Opinion Unit
P.O. Box 4801
Trenton, New Jersey 08650-4801

It should be emphasized that the requirement for a second surgical opinion is waived when the operating physician determines that the need for surgery is urgent or emergent.

For second surgical opinion purposes, "Urgent or Emergent" means that a delay in surgery to comply with the protocol of the Second Surgical Opinion Program would result in a significant threat to the patient's health or life. A second surgical opinion is also waived when there is no appropriate Second Surgical Opinion provider geographically accessible to the beneficiary. However, the Medicaid or NJ KidCare-Plan A beneficiary must contact the Second Surgical Opinion Hot-Line to get appropriate documentation for the geographic waiver (FD-263 form).

To facilitate reimbursement in instances where the surgery meets the "Urgent or Emergent" definition, the physician or independent clinic must attach to the claim form a

statement from the operating physician attesting to the urgent or emergent nature of the illness or situation (see N.J.A.C. 10:54-5.40).

No **Medicaid Second Surgical Opinion Referral Form** (FD-263) (9/91) will be required for claims submitted by an anesthesiologist or an assistant surgeon.

Claims for the elective procedures covered by this policy, that **do not** meet the exceptions discussed above, must be submitted “hard copy” and have a Medicaid Second Surgical Opinion Referral Form (FD-263) attached.

ACTION: The following HCPCS procedure codes require a Second Surgical Opinion:

A. **Hysterectomy (Elective Procedures)**

NOTE: HCPCS codes identified with an asterisk (*) do not require Second Surgical Opinion if the beneficiary is 19 years of age or under with a diagnosis of scoliosis.

NOTE: Effective for claims with dates of service on or after January 1, 2000, the codes proceeded with a “+” sign are designated as add-on codes. These add-on codes are always performed in addition to the primary procedure **only** by the **same physician**. All add-on codes are **exempt** from the multiple surgical pricing methodology (see N.J.A.C. 10:54-4.15). In the forth-coming proposal to the chapter, the indicator code “E” will be used to define these add-on codes.
