NEWSLETTER

Volume 10 No. 51

July 2000

TO: Providers of Pharmaceutical Services – For Action
Health Maintenance Organizations – For Information Only

SUBJECT: Average Wholesale Prices

EFFECTIVE: Certain claims with service dates **on or after July 1, 2000**

PURPOSE: To notify providers of pharmaceutical services of new procedures being used by First Data Bank (FDB) to verify the accuracy of Average Wholesale Prices (AWPs); and to announce changes in the State's reimbursement formula for those drugs affected by these changes

BACKGROUND: First Data Bank (FDB), the drug file used by the State to process pharmacy claims, changed its data collection techniques to verify the accuracy of pricing information received from drug manufacturers. As a result, AWP changes for certain drugs have affected drug prices used by the NJMMIS to adjudicate pharmacy claims.

The new AWPs resulting from the FDB verification process better reflect drug acquisition costs. As a result, the Division of Medical Assistance and Health Services (DMAHS) and the Department of Health and Senior Services (DHSS) are changing their reimbursement formula for those drugs affected by these changes.

ACTION:

- (1) For certain claims with service dates **on or after July 1, 2000**, FDB will base the Average Wholesale Price (AWP) for certain prescription drugs on market prices determined by a survey of drug wholesalers. The attached list includes those prescription drugs affected by this change.
- (2) For these claims, reimbursement for Medicaid, General Assistance (GA), Pharmaceutical Assistance to the Aged and Disabled (PAAD), AIDS Drug Distribution Program (ADDP) and Cystic Fibrosis (CF) fee-for-service pharmacy claims shall be based on the lower of a pharmacy's usual and customary charge; or a drug's Average Wholesale Price (AWP) plus a dispensing fee of \$3.73 to \$4.07. The Maximum Allowable Cost (MAC) price shall continue to apply to these drug claims when appropriate.

If you have any questions concerning this Newsletter, please do not hesitate to contact the Chief, Pharmaceutical Services, DMAHS, at (609) 588-2724.

If you have any questions concerning the PAAD, ADDP or CF program, please do not hesitate to contact the PAAD Pharmaceutical Consultant, at (609) 588-7034.
