

State of New Jersey  
Department of Human Services  
Division of Medical Assistance & Health Services

# NEWSLETTER

Volume 12 No. 57

July 2002

**TO:** Providers of Pharmaceutical Services - For Action  
Health Maintenance Organizations - For Information Only

**SUBJECT:** Reinstatement of Edit 577

**EFFECTIVE:** Claims with service dates on or after July 15, 2002

**PURPOSE:** To notify providers of pharmaceutical services of the decision by the Division of Medical Assistance and Health Services (DMAHS) to reinstate Edit 577 for all Work First New Jersey (WFNJ)/General Assistance (GA) single adults eligible to receive pharmaceutical benefits under the State's fee-for-service (FFS) pharmaceutical assistance program.

**BACKGROUND:** On July 1, 2000, providers of pharmaceutical services were notified by DMAHS that responsibility for prior authorizing FFS pharmacy claims subject to Edit 577, the point-of-sale (POS) edit that monitors utilization of certain drugs by WFNJ/GA beneficiaries, would be assumed by First Health Services, the State's Medical Exception Process (MEP) contractor. At that time, application of Edit 577 was limited to certain municipalities, including Newark, East Orange, Camden City, and Trenton.

Pharmacies were also notified that Edit 423, the MEP prior authorization edit, would post to these claims in addition to Edit 577. Information concerning the MEP process and the need for prior authorization may be found in the Medicaid/PAAD Newsletter Volume 9, No. 67, dated November 1999.

Due to over-utilization concerns, DMAHS is reinstating Edit 577 for all WFNJ/GA single adult prescription claims for the purpose of applying a comprehensive drug utilization review process to ensure that services received by these beneficiaries are medically necessary.

**ACTION:** Effective for claims with service dates on or after July 15, 2002, Edit 577 shall be reinstated for those drugs listed on the attachment to this Newsletter. For your convenience, new drugs added to this list since July 1, 2000, are in bold.

These claims are also subject to Edit 423, the MEP prior authorization edit, requiring the pharmacist to request prior authorization from First Health Services. To request prior authorization, pharmacists are required to contact First Health Services at 1-877-888-2939.

Please note:

- 1) Prior authorizations for Edit 577 claims shall not exceed 30 days.
- 2) The early refill limitations for these claims shall increase from 75 percent to 90 percent.
- 3) In addition to a 100 percent prior authorization requirement, these claims may be subject to further MEP edits when drug utilization review (DUR) standards recommended by the New Jersey Drug Utilization Review Board (NJDURB) and approved by the New Jersey Department of Human Services are exceeded. These standards include, but may not be limited to maximum daily dosage, therapeutic duplication, drug-drug interactions and durations of drug use.

If you have any questions concerning this Newsletter, please do not hesitate to contact the Chief, Pharmaceutical Services, at (609) 588-2724.

## **DRUG CLASSES REQUIRING PRIOR AUTHORIZATION\***

**\*(Individual drugs may be listed above)**

- Hypotensive Angiotensin Converting Enzyme Blocking Agents
- Hypotensive Angiotensin Receptor Antagonists
- Food Supplements
- Bile Salts
- Pancreatic Enzymes
- Drugs to Treat Impotency
- Migraine Agents
- Intestinal Motility Stimulants
- Vitamin A Derivatives Used for Skin
- Lipotropics
- Hematinics
- Growth Hormones
- Luteinizing Hormones
- Pituitary Suppressive Agents
- Steroid Antineoplastics
- Antitubercular Antibiotics
- Lincosomides
- Betalactams
- Quinolones
- Antimycobacterium Agents
- Antifungal Agents
- Antiprotozoal Drugs
- Antiviral Agents
- Antiviral Agents, HIV
- Antiviral Agents, HIV, Protease Inhibitors
- Needles
- Syringes
- Histamine H2 Inhibitors
- Mast Cell Stabilizers
- Immunomodulators
- **Gastric Acid Secretion Reducers**
- **Antiviral Monoclonal Antibiotics**
- **Hepatitis B Treatment Agents**
- **Hepatitis C Treatment Agents**
- **Nucleotide Analogue Reverse Transcriptase Inhibitors**
- **Anti-inflammatory Tumor Necrosis Factor Inhibitor**
- **Agents to Treat Multiple Sclerosis**
- **Antineoplastic LHRH (GNRH) Agonists, Pituitary Support**
