## “CORRECTIONS TO NEWSLETTERS VOLUME 12 NO. 47 & 55”

**TO:** Physicians, Certified Nurse Midwives, Certified Nurse Practitioners/Clinical Nurse Specialists, Independent Clinics, and Federally Qualified Health Centers– **For Action**  
Health Maintenance Organizations – **For Information Only**

**SUBJECT:** Revised List of Approved Practitioner-Administered Drugs

**EFFECTIVE:**

1. **Additions:** Effective for Claims with Dates of Service on or after **January 1, 2002**
2. **Deletions:** Effective for Claims with Dates of Service on or after **July 1, 2002**
3. **Change in reimbursement** for Claims with Dates of Service on or after **July 1, 2002**

**PURPOSE:** The purpose of this Newsletter is to update the Medicaid fee allowances for approved practitioner-administered drugs, and also notify practitioners of additions and deletions of drugs approved for office, home or independent clinic administration.

**BACKGROUND:** In the past, New Jersey Division of Medical Assistance and Health Services (DMAHS) published an updated list of approved practitioner-administered procedure codes, descriptions, and Medicaid and NJ FamilyCare fee-for-service maximum fee allowances. These fee allowances reflect the cost of common dosages of approved drugs, based on each drug's Average Wholesale Price (AWP) per unit. A unit represents the dosage indicated in the description for each drug listed.

**ACTION:** The New Jersey Division of Medical Assistance and Health Services (DMAHS) has added new HCPCS codes and applicable maximum fee allowances, effective for claims with dates of service on or after **January 1, 2002**, and also deleted certain HCPCS codes, effective for claims with dates of service on or after **July 1, 2002**. These codes are reimbursable to Physicians, Certified Nurse Midwives, Certified Nurse Practitioners/Clinical Nurse Specialists, Independent Clinics, Federally Qualified Health Centers, as appropriate, based on their scope of practice, by the New Jersey Medicaid and NJ FamilyCare programs. Providers should use these HCPCS codes when submitting claims for processing.

**NOTE:** When billing for any codes listed in this attachment, enter the average wholesale price (AWP) or your acquisition cost, whichever is lower, in block 24F on the CMS (HCFA) 1500 claim form.

For your convenience, a complete list of approved drugs is included in the attachment. Corrections are **underlined and in bold print**.

Please discard all the previous Newsletters related to the list of approved practitioner-administered drugs.

If you have any questions regarding this Newsletter, please contact the Office of Utilization Management at (609) 588-2718.
