Department of Human Services
Division of Medical Assistance & Health Services

NEWSLETTER

Volume 14 No. 48

June 2004

TO: **Providers of Pharmaceutical Services – For Action**
Health Maintenance Organizations – For Information Only

SUBJECT: **Updates to the Error Code 577 Drug List**

EFFECTIVE: Pharmacy claims with service dates on or after July 1, 2004

PURPOSE: To notify providers of pharmaceutical services that the Division of Medical Assistance and Health Services (DMAHS), has updated the current listing of drugs subject to Error Code 577 for all Work First New Jersey General Assistance (WFNJ/GA), single adults eligible to receive pharmaceutical benefits under the State's fee-for-service (FFS), pharmaceutical assistance program. The use of Error Code 577 is part of a comprehensive drug utilization review process which ensures that services received by WFNJ/GA beneficiaries are medically necessary. The drugs on the list were selected based on the outcome of a drug utilization review conducted by DMAHS.

BACKGROUND: Error Code 577 was reinstated for WFNJ/GA FFS pharmacy claims with service dates on or after July 15, 2002. See Newsletter Volume 12, No. 57, dated July 2002.

In addition to Error Code 577, Error Code 423, the Medical Exception Process (MEP), prior authorization edit, posts to these claims. To request prior authorization, pharmacists are required to contact First Health Services, which is responsible for prior authorization at 1-877-888-2939. Information concerning the MEP process and the need for prior authorization is contained in Newsletter Volume 9, No. 67, dated November 1999.

The current listing of drugs subject to Error Code 577 contains specific drugs and dosages. The current listing of drugs subject to Error Code 423 contains the same specific drugs and dosages **and** a list of drug classes which require prior authorization.

ACTION: **Effective for WFNJ/GA FFS pharmacy claims with service dates on or after July 1, 2004,** only those drugs listed on the attachment to this Newsletter are subject to Error Codes 577 and 423. The list has been revised as follows:

1. National Drug Codes (NDCs), instead of drug class, are used to identify drugs subject to Error Codes 577 and 423. The list of drug classes has been removed, and specific drugs are identified.
2. Certain drugs have been deleted from the list because overutilization is no longer a concern.

Please note:

1. DMAHS is discontinuing the 30-day supply limitation for prior authorizations issued for Error Code 577. Drugs subject to Edit 577 may be prior authorized for up to a period of six (6) months, based on medical necessity. However, other limitations on dispensing contained in N.J.A.C. 10:51 continue to apply.
2. The early refill limitation of 90 percent remains unchanged.
3. Error Code 577 claims may be subject to further MEP edits when DUR standards recommended by the New Jersey Drug Utilization Review Board (NJDURB) and approved by the Departments of Human Services and Health and Senior Services are exceeded.

If you have any questions concerning this Newsletter, please do not hesitate to contact First Health Services at 1-877-888-2939 or the Chief, Pharmaceutical Services, Division of Medical Assistance and Health Services, at (609) 588-2724.
