NEWSLETTER

Volume 21 No. 21

October 2011

TO: All Hospital Providers
All New Jersey Managed Care Providers (Informational only)

SUBJECT: Availability of HMO data on NJMMIS Provider Website

EFFECTIVE: Immediately

PURPOSE: To advise NJ acute care hospitals of access to inpatient managed care claims data being reported by the NJ managed care organizations to New Jersey Medicaid / New Jersey FamilyCare program

BACKGROUND: Currently while managed care claims data is provided by the HMOs to the State, New Jersey Medicaid / New Jersey FamilyCare providers have no way to access or monitor these claims. Effective immediately, all acute care hospital providers can now access their inpatient claims data via the NJMMIS website, www.njmmis.com. The data is being provided as a comma delimited file and the data will be updated bi-annually in July and January.

The available data will be for the first previous completed calendar year's claims and will contain 12 months of claims and either 18 or 24 months of payments. For example, data provided in July of 2012 will contain claims that have claim service through dates between 1/1/2011 and 12/31/2011 and have a claim payment date between 1/1/2011 and 6/30/2012. A second run of this data will occur in January 2013 for the same dates of service (1/1/2011 – 12/31/2011) but with the claim payment date between 1/1/2011 and 12/31/2012. Again, inpatient paid, adjusted, and denied claims for acute care hospitals are only available at this time.

The data file on the website will be provided in a comma delimited format. The column headers are as follows: 1). Recipient Last Name, 2). Recipient First Name, 3). Patient Account Number, 4). Medicaid Recipient Number, 5). Medicaid ICN, 6). Medicaid Former ICN, 7). Medicaid Billing Provider Number, 8). Claim Submitting Provider ID, 9). Claim Service From Date, 10). Claim Service Thru Date, 11). Claim DRG, 12). Claim Payment Date, 13). Claim Payment Amount, 14.) Claim Status, 15). Claim Type Code, 16). Claim TPL Paid, 17). Claim TPL Doc, Columns 18-27). Claim Error Codes 1-10.

Once a provider accesses the secured section of the website using their provider ID and password, that provider's claims can be downloaded and then used by the provider as reference material. For problems accessing the file or website questions, please contact Molina Medical Solutions Provider Services at 1-800-776-6334 or via email through the contact webmaster (located on the menu toolbar) on www.njmmis.com. For questions regarding specific claims data, please contact the managed care organization identified on the claim by the claim submitting provider ID. The submitting provider IDs for New Jersey Medicaid HMOs are as follows: Horizon NJ Health 7700032, United Healthcare Community NJ 7700121, Amerigroup NJ 7700113, and HealthFirst Health Plan of NJ 7700172.

ACTION: No action required. Data is provided for informational purposes only.
