July 1993

PHARMACEUTICAL ASSISTANCE TO THE AGED AND DISABLED PROGRAM

TO: Providers of Pharmaceutical Services

SUBJECT: Pharmaceutical Assistance to the Aged and Disabled (PAAD) Drug Manufacturers' Rebate Program - Pharmaceutical Rebate Act (P.L. 1992, C.83 and P.L. 1993, C.97)

EFFECTIVE: Claims with dates of service on and after July 31, 1993

PURPOSE: This Newsletter informs providers that PAAD reimbursement for legend drugs and insulin is limited to manufacturers who have entered into a PAAD rebate agreement with the Commissioner of the New Jersey Department of Human Services.

BACKGROUND: In accordance with the Pharmaceutical Rebate Act (P.L. 1992, C.83 and P.L. 1993, C.97), the Pharmaceutical Assistance to the Aged and Disabled program shall limit the coverage of pharmaceutical products to manufacturers who agree to provide rebates to the State.

This requirement covers legend drugs and insulin. This requirement does not apply to insulin needles and syringes, diabetic testing materials, legend pharmaceutical devices and vaccines. In accordance with the revised implementation dates specified in the Fiscal Year 1994 Appropriations Act, manufacturers must have entered into and have in effect a rebate agreement with the Commissioner of the New Jersey Department of Human Services by June 30, 1993.

ACTION: Claims with dates of service on and after July 31, 1993, for drug products manufactured by pharmaceutical companies that do not have a signed PAAD drug rebate agreement in effect on June 30, 1993, will be denied payment by the PAAD program. A list of participating pharmaceutical manufacturers companies is attached for your information.

Drug products manufactured by participating pharmaceutical companies are identified by the labeler codes on the attached list and are reimbursable under the PAAD program. A drug manufacturer may have multiple labeler codes depending on product and manufacturing site. Drug products with a labeler code not on the attached list are not covered by the PAAD program.

The list of pharmaceutical companies and labeler codes participating in the PAAD Drug Manufacturers' Rebate program will be updated periodically. Additional labeler codes and respective effective dates will be published on the cover page of the New Jersey Medicaid Management Information System (NJMMIS) Remittance Advice statement for immediate provider notifications and in subsequent Newsletters.

Included with this Newsletter is a sign which may be posted informing PAAD beneficiaries of the potential impact of the PAAD Drug Rebate Act in the coverage of certain prescriptions.

National Drug Code (NDC) Numbers: The eleven digit NDC number consists of three components. The first five digits are the labeler code, which identifies the drug manufacturer, the next four digits identify the drug product and the last two digits identify the drug product package size. The provider must always report the actual labeler code and drug product code of the drug dispensed. The package size code reported may differ from the actual stock package size used to fill prescriptions.

The requirements of the Pharmaceutical Rebate Act are subject to audit and verification. A provider may be required to substantiate the use of NDC numbers billed to the PAAD program for payment by providing documentation of purchases to support the actual product used to dispense a PAAD prescription. Failure to comply with these requirements may result in recapture of PAAD payments.

NOTE 1: This policy applies to the PAAD program. Although it is similar to the Medicaid Drug Manufacturers' Rebate program, drug manufacturers participating in the Medicaid Drug Rebate program may chose not to participate in the PAAD Drug Rebate program. Alternatively, a pharmaceutical company excluded from the federal Medicaid program because it failed to execute a Medicaid Drug Rebate Agreement could participate in PAAD program. It is important for providers to review additions and/or deletions of labeler codes which will be provided in future Fiscal Agent Remittance Advice Statements and Newsletters. These notices and Newsletters will be clearly marked Medicaid or PAAD. Covered labeler codes in the PAAD program are not interchangeable with covered labeler codes in the Medicaid program unless the same labeler code appears on each list.

NOTE 2: These policies do not affect payment under the Aids Drug Distribution (ADDP) program or the General Assistance (GA) program (GAP).

NOTE 3: Drug products prescribed and not covered by the PAAD program are the financial responsibility of the PAAD beneficiary. Pharmacy providers, where possible, are encouraged to assist affected beneficiaries, in consultation with their prescriber, to identify opportunities to change non-covered prescriptions to prescriptions for drug products covered by the PAAD program.

If you have any questions regarding this Newsletter, please contact the Chief Pharmacy Consultant at 609-588-2724 or the PAAD program at 609-588-7032.

"ATTENTION PAAD BENEFICIARIES"

Effective July 31, 1993, as a result of the PAAD Drug Rebate law, certain prescriptions will no longer be covered by the PAAD program. Your pharmacist will advise you regarding coverage of your prescriptions by PAAD. If your prescriptions are not covered, please consult with your physician to determine if an alternative PAAD covered medication may be prescribed.
