NEWSLETTER

Volume 8 No. 12

February 1998

TO: Physicians,
Certified Nurse Midwives,
Certified Nurse Practitioners/Clinical Nurse Specialists,
Independent Clinics (including Federally Qualified Health Centers),
and Health Maintenance Organizations

SUBJECT: Updates to the List of Approved Practitioner-Administered
Drugs

EFFECTIVE: Claims with service dates on or after February 1, 1998

PURPOSE: To notify practitioners of additional drugs approved for office, home
or independent clinic administration.

BACKGROUND: In November 1996, the New Jersey Division of Medical Assistance
and Health Services (DMAHS) published an updated list of approved practitioner-
administered procedure codes, descriptions, and Medicaid maximum fee allowances.
These fee allowances reflect the cost of common dosages of approved drugs, based on
each drug's Average Wholesale Price (AWP) per unit. Unless otherwise indicated, a
"unit" is defined as one (1) cubic centimeter (cc.) or one (1) milliliter (ml.). For drugs
packaged in one cc. or one ml. vials, the fee allowance reflects the AWP per vial. For
additional information regarding coverage and reimbursement for approved practitioner-
administered drugs, please see the Medicaid Newsletters Volume 4, No. 4, dated
January 1994, and Volume 6, No. 60, dated November 1996.

ACTION: For claims with service dates on or after February 1, 1998, the **additional**
procedure codes and Medicaid maximum fee allowances described on the attached list
are available for billing the AWP of drugs approved for office, home or independent
clinic administration by the New Jersey Medicaid program. These codes reflect
additional services which may be billed when administered in these settings and are in
addition to those previously announced to practitioners in the Medicaid Newsletter
Volume 6, No. 60, dated November 1996.
