SUBJECT: Medical Emergency Payment Program for Aliens

EFFECTIVE: **February 1, 1998** for children under N.J.A.C. 10:79 (NJ KidCare-Plan A only)
November 1, 1998 for all other Medicaid programs

BACKGROUND: The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 and the Balanced Budget Act of 1997 changed the criteria by which legally admitted aliens can qualify for medical assistance. An alien who does not qualify as an eligible alien but who is a resident of New Jersey and would otherwise qualify for medical assistance is entitled **only** to care and services necessary for the treatment of an emergency medical condition as defined in section 1903(v)(3) of the Social Security Act. Undocumented aliens and non-immigrants (tourists, workers and visitors) are also **only** eligible for emergency services. Eligibility and coverage for these services is received through the Medical Emergency Payment Program for Aliens if they would otherwise qualify for medical assistance.

Emergency services must be provided in an acute care hospital (or in any setting for labor and delivery procedures). The symptoms must be severe enough (including severe pain) that not providing immediate medical attention would probably:

- *Place the patient's health in serious danger;*
- *Seriously impair the patient's bodily functions; or*
- *Seriously impair the use of any body part or organ.*

To facilitate the payment of hospital and related claims, all diagnoses have been classified as emergency or non-emergency

services in accordance with the above definition of an emergency. Those diagnoses defined as emergencies do not require any authorization by the attending physician. Those diagnoses that are not defined as emergencies require a hardcopy attachment (Certification of Treatment of Emergency Medical Condition) FD-80 (7/97) signed by the attending physician confirming the emergency nature of the encounter (see attached list of emergency diagnoses).

For purposes of this program, **all** labor and delivery services are considered emergency services and therefore do not require the hardcopy attachment.

**OF SPECIAL
INTEREST TO
HOSPITALS:**

Those ineligible alien pregnant women who would have previously been eligible for full Medicaid benefits (on behalf of their unborn child) are now **only** eligible for coverage of emergency services. However, those ineligible alien pregnant women who were determined Medicaid eligible by the county board of social services **prior** to the effective date of this change **will not be terminated** from Medicaid until two months after the birth of the child or the end of the pregnancy. Ineligible alien pregnant women who filed for presumptive eligibility, but who had **not** been determined eligible for full Medicaid by the county board of social services **prior** to the effective date of the change, are eligible **only** for emergency services regardless of the citizenship of the unborn child. However, an infant born to an ineligible alien mother whose labor and delivery were covered by Medicaid emergency services is deemed to have filed for and been found eligible for Medicaid. The infant remains eligible until reaching age one under the deemed status so long as the mother remains eligible, or would have remained eligible if pregnant, even though she cannot receive services other than emergency services.

If aliens who are found eligible for payment of emergency services receive care in an acute care hospital (inpatient, outpatient or emergency room) and the diagnosis meets the above criteria, their hospital, physician and some other related medical costs (including ambulance service) can be covered by this program. However, they will **not** be eligible for services (including pharmacy services) after they are discharged.

Physician, nurse-midwife and some other related medical costs (including ambulance service) can be covered by this program in any setting if labor and delivery procedure codes are indicated on the claim.

Emergency services that are not related to those provided in a hospital or to labor and delivery are not reimbursable.

Fact sheets explaining this program to possible applicants and posters similar to those which describe "Charity Care" are attached.

Who might qualify for full Medicaid or NJ KidCare coverage?

Aliens who meet all categorical and financial eligibility criteria for Medicaid and were legally residing in the United States prior to August 22, 1996 may qualify for full Medicaid benefits. Those who entered the United States on or after August 22, 1996 and are refugees, asylees, Cuban/Haitian entrants, Amerasian immigrants, or whose deportation is being withheld by the Immigration and Naturalization Service pursuant to certain sections of the Immigration and Nationality Act may also qualify for full Medicaid coverage. In addition, those who are honorably discharged U.S. military veterans, are on active duty in the military, or a spouse or unmarried dependent child of members of the military, may also qualify for full Medicaid coverage. Certain American Indians born in Canada are treated the same as a U.S. citizen for purposes of Medicaid eligibility. These aliens should contact the county board of social services in the county where they live to apply for full Medicaid. For children under age 19, their parent or authorized representative may call NJ KidCare toll-free at 1-800-701-0710 to request a mail-in application or receive more information about NJ KidCare.

ACTION:
(For Acute Care
General Hospitals)

1. Please distribute the Medical Emergency Payment Program for Aliens fact sheets to prospective applicants and explain the program to them. Eligibility for the Medical Emergency Payment Program for Aliens will be established through the county board of social services in the county where the applicant resides. If the county board of social services has outstationed staff located at your facility, the outstationed staff should make every effort to take the application. If not, hospital staff must notify the county board of social services that the individual had an emergency service performed at your facility and is interested in applying for this program by completing and sending to the county Form PA-1C (rev. 5/97) with "Emergency Services for Aliens" checked off (see attached). That form will serve as a referral to the county for this program and will protect the possible effective date of Medicaid/NJ KidCare-Plan A eligibility if the individual applies at the county board of social services within three (3) months of that date. When the emergency involves the birth of a child, in order to facilitate the establishment of an eligibility record for the child, please include information concerning the child on Form PA-1C. Birth center staff should advise prospective applicants to go to the county board of social services within three months of the date of service to apply for the Medical Emergency Payment Program for Aliens and take the bill with them.

2. When submitting a claim to Unisys (the fiscal agent) for a beneficiary eligible for the Medical Emergency Payment Program for Aliens, providers should:

- Confirm eligibility through the Recipient Eligibility Verification System (REVS) or the Medicaid Eligibility Verification System (MEVS). (Both systems will indicate when a beneficiary is entitled to only emergency services.)

Only those claims which relate to the covered emergency services, i.e., those provided in a hospital or relating to labor and delivery, will be reimbursed. If the individual has another emergency at a later date, he/she must reapply for emergency coverage.

NOTE:

Since applicants will be applying for this program retroactively, several months may elapse before Medicaid/NJ KidCare-Plan A emergency services eligibility is established and entered into REVS or MEVS.

- Attach a completed Certification of Treatment of Emergency Medical Condition (FD-80) **signed** by the attending physician **(when necessary)**. If a claim is denied because the diagnosis is not considered an emergency and no physician certification was attached to the original claim, the claim can be resubmitted with a Certification of Treatment of Emergency Medical Condition. The attending physician must certify that the symptoms were severe enough to meet the above definition of an emergency.

Please bring any bills that you received for the emergency medical condition with you to your county board of social services application interview.

If your emergency involved labor and delivery services not performed in a hospital setting, you also may apply at the county board of social services, but you must have bills indicating labor and delivery charges. An application must be made within 3 months of the date of the emergency for that emergency to be covered by this program.
