<i>Hospital Name</i>	<i>Total Medicaid Pediatric Acute Days</i>	<i>% to total</i>
<i>TOTALS</i>		

- 1. Hospitals were identified based on NJ Acute Care General Hospitals.*
 - 2. Expenses and utilization are based on discharges that occurred in Calendar Year 2023 MCO encounter and Fee-For-Service data. No utilization trends or enrollment growth assumptions were applied to this data. Pediatric admissions and utilization are associated with patients less than or equal to 20 years old on the date of service.*
 - 3. This data does not include any other hospitals that are not primarily reimbursed through a DRG-based methodology such as being reimbursed using a set per diem rate or hospitals that are located out of the state, which are both not affected by this add-on change. The rate and add-on information displayed for this grouping is a weighted average of all included hospitals based on admissions.*
 - 4. The new pediatric service add-on is calculated assuming the top 25% of hospitals (17 of the 64 hospitals) by pediatric patient volume would be eligible for a 10% rate increase, with the top 10% of hospitals (6 of the 64 hospitals) by volume being eligible for a 15% increase. This is similar with the methodology for the existing Critical Services add-on.*
-
