Medicaid Alert

MA-2017-02

August 2017

TO: All Providers – For Information Only

SUBJECT: New Jersey Charity Care (NJCC)/NJ FamilyCare (NJFC)
Provider ID and NPI Relationships

ANNOUNCEMENT

Certain providers with multiple provider IDs are required to respond to a State request for additional NPI information to avoid interruptions in claim payments.

The State of New Jersey is scheduled to implement a new claims processing system, referred to as the Replacement Medicaid Management Information System (R-MMIS), in late 2018. The new system will no longer use a 7-digit provider ID number to identify NJCC/NJFC/Medicaid-participating providers. The R-MMIS will only use the NPI to identify NJCC/NJFC-participating providers.

Providers with multiple provider IDs linked to the same NPI and providers with no NPI information on file will be receiving a **National Provider Identifier (NPI) Data Confirmation Request Form** from Molina Medicaid Solutions. Providers who receive the Request Form are required to respond to questions regarding existing Provider ID/NPI relationships on file with the State, as well as the possible need to establish new provider ID/NPI relationships in order to submit claims to the R-MMIS.

Prior to R-MMIS implementation, providers may continue to request more than one Provider ID from the State; however each Provider ID must be associated with a different NPI. After the R-MMIS implementation, provider IDs will no longer be issued and the NPI will be the only provider identifier used by the State of New Jersey to identify a NJCC/NJFC-participating provider.

If you have any questions concerning this Alert, please contact Molina Medicaid Solutions Provider Services at 1-800-776-6334.
