

**New Jersey Medicaid** 

HIPAA Transaction Standard Companion Guide

**Refers to the Implementation Guides Based on ASC X12N version 5010** 

**Encounter 835 Claim Payment Advice** 

October 2018

#### Preface

This Companion Guide to the v5010 ASC X12N Implementation Guides and associated errata adopted under Health Insurance Portability and Accountability Act (HIPAA) clarifies and specifies the data content when exchanging electronically with Molina Healthcare. Transmissions based on this Companion Guide, used in tandem with the v5010 ASC X12N Implementation Guides, are compliant with both ASC X12 syntax and those guides. This Companion Guide is intended to convey information that is within the framework of the ASC X12N Implementation Guides adopted for use under HIPAA. The Companion Guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the Implementation Guides.

#### EDITOR'S NOTE

## **1. INTRODUCTION**

This section describes how 5010 X12 Type 3 Technical Reports (TR3) adopted under HIPAA will be detailed with the use of a table. The tables contain a row for each segment that Molina Healthcare has something additional, over and above, the information in the TR3s. That information can:

- Limit the repeat of loops, or segments
- Limit the length of a simple data element
- Specify a sub-set of the TR3s internal code listings
- Clarify the use of loops, segments, composite and simple data elements
- Any other information tied directly to a loop, segment, composite, or simple data element pertinent to trading electronically with Molina Healthcare

In addition to the row for each segment, one or more additional rows are used to describe Molina Healthcare's usage for composite and simple data elements and for any other information. Notes and comments should be placed at the deepest level of detail. For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides. Please note that the table reflects sample data and not actual data.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
193	2100C	NM1	Subscriber Name			This type of row always exists to indicate that a new segment has begun. It is always shaded at 10% and notes or comment about the segment itself goes in this cell.
195	2100C	NM109	Subscriber Primary Identifier		15	This type of row exists to limit the length of the specified data element.
196	2100C	REF	Subscriber Additional Identification			
197	2100C	REF01	Reference Identification Qualifier	18, 49, 6P, HJ, N6		These are the only codes transmitted by Molina Healthcare.
			Plan Network Identification Number	N6		This type of row exists when a note for a particular code value is required. For example, this note may say that value N6 is the default. Not populating the first 3 columns makes it clear that the code value belongs to the row immediately above it

#### SCOPE

This companion guide documents the transaction type listed below and further defines situational and required data elements that are used for processing 835 healthcare claim payment advice for programs administered by New Jersey (NJ) Medicaid. This document is not the complete Electronic Data Interchange (EDI) transaction format specifications. Refer to the ASC X12N Implementation Guides or 5010 TR3 for information not supplied in this document, such as code lists, definitions, and edits.

- Healthcare Claim Payment/Advice ASC X12N 835 (005010X221)
- Addenda Healthcare Claim Payment Advice ASC X12N 835 (005010X221A1)

#### **OVERVIEW**

Data elements, segments, and loops not included in this guide are not used for processing claims by NJ Medicaid, but will still be sent if the information is required for compliance with the ASC X12N version 5010A2 format.

#### REFERENCES

The ASC X12N Implementation Guides or 5010 TR3 are standards developed by the X12 committee and published by the Washington Publishing Company (WPC).

http://store.x12.org/store/healthcare-5010-consolidated-guides

#### **ADDITIONAL INFORMATION**

- Assumptions regarding the reader
  - The reader is interested in reducing error, maximizing efficiency, and saving money.
  - NJ Medicaid encourages all providers to receive and make use of the standard HIPAA 835 Healthcare Claim payment Advice.
- Advantages / Benefits of EDI
  - The 835 Healthcare Claim payment Advice allows for automated matchup of claims payment data sent to the receiver from NJ Medicaid using computer software.

If the user does not already receive the 835 Healthcare Claim Payment Advice (electronically), contact the Molina EDI Helpdesk at:

- <u>https://TP-Registration.njrmmis.com/SitePages/User-Guides.aspx</u> during Trading Partner Registration and X12 Transaction Testing
- <u>https://www.njmmis.com/SitePages/User-Guides.aspx</u> after Health PAS is fully functional

## 2. GETTING STARTED

### WORKING WITH MOLINA HEALTHCARE

Visit the following sites for information:

- <u>https://TP-Registration.njrmmis.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>https://www.njmmis.com</u> after Health PAS is fully functional

For any questions or to begin testing, contact the Molina EDI Helpdesk.

Contact email:

- <u>NJRMMISINFORMATION@molinahealthcare.com</u>during Trading Partner Registration and X12 Transaction Testing
- <u>NJMMISEDI@molinahealthcare.com</u> after Health PAS is fully functional

#### TRADING PARTNER REGISTRATION

A trading partner is defined as any entity with which Molina exchanges electronic data. The term electronic data is not limited to HIPAA X12 transactions. NJ Medicaid's Healthcare Payer Administration Solution (Health PAS) supports the following categories of trading partner:

- Provider
- Billing Agency/Clearinghouse
- Health Plan

To obtain a trading partner ID, visit:

- <u>https://TP-Registration.njrmmis.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>https://www.njmmis.com</u> after Health PAS is fully functional

#### **CERTIFICATION AND TESTING OVERVIEW**

All trading partners must be authorized to submit production EDI transactions. Any trading partner may submit test EDI transactions. The Usage Indicator, element 15 of the Interchange Control Header (ISA) of an X12 file, indicates if a file is test or production. Authorization is granted on a per transaction basis. For example, a trading partner may be certified to submit 837P (professional) claims but not certified to submit 837I (institutional) claim files.

## **3. TESTING WITH THE PAYER**

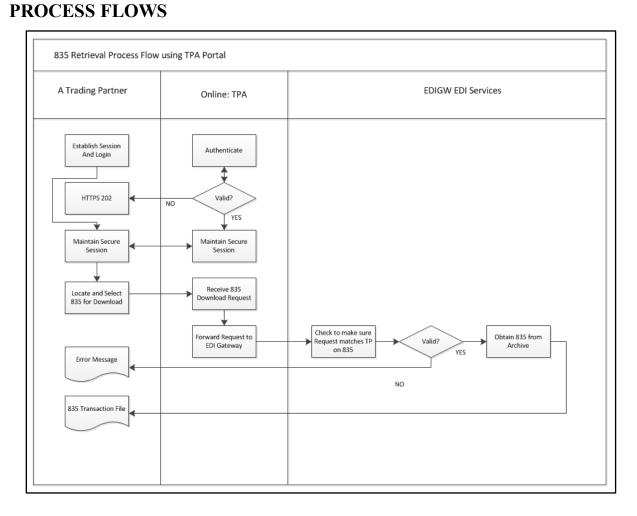

Trading partners must submit three test files of a particular transaction type, with a minimum of fifteen transactions within each file, and have no failures or rejections to become certified for production. Users will be notified via email and the Trading Partner Status page of Health PAS Website when testing for a particular transaction has been completed.

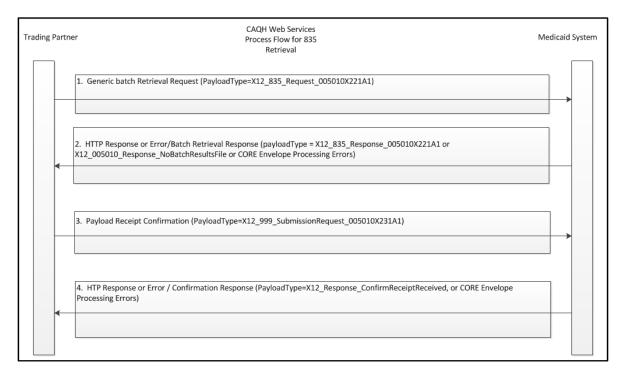

The Trading Partner Status page is found by logging into the user's trading partner account on the Health PAS Website:

- <u>https://TP-Registration.njrmmis.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>https://www.njmmis.com</u> after Health PAS is fully functional

Detailed instructions for retrieving and interpreting HIPAA validation acknowledgments may be found in the Business Scenarios and Transmission Examples appendices found at the end of this companion guide.

## 4. CONNECTIVITY WITH THE PAYER/COMMUNICATIONS

#### TRANSMISSION ADMINISTRATIVE PROCEDURES

X12 files can be uploaded via the Health PAS Website File Exchange X12 Upload.

835 Healthcare Claim Payment Advice transaction files, acknowledgments, and responses to transactions submitted via the Health PAS Website can be accessed by selecting X12 Responses under the File Exchange menu.

For additional information, refer to the Health PAS-OnLine user guides at:

- <u>https://TP-Registration.njrmmis.com/SitePages/User-Guides.aspx</u> during Trading Partner Registration and X12 Transaction Testing
- <u>https://www.njmmis.com/SitePages/User-Guides.aspx</u> after Health PAS is fully functional

Trading Partners who have submitted X12 transactions via secure File Transfer Protocol (sFTP) may retrieve 835 Healthcare Claim Payment Advice transaction files from their designated secured FTP Pickup location.

#### **RE-TRANSMISSION PROCEDURE**

The data element ISA13 – Interchange Control Number needs to be unique to each file and Trading Partner ID.

#### **COMMUNICATION PROTOCOL SPECIFICATIONS**

The following communications protocols are available for receiving the ASC X12N 835 transaction Files.

- Batch Mode:
- Hyper Text Transfer Protocol (HTTPS) download via the Health PAS Website.
- FTP though a secure, dedicated Virtual Private Network (VPN) connection.
- Council for Affordable Quality Healthcare (CAQH) Web service

Authorized trading partners can now request 835 transactions through CAQH Web services. CAQH Phase III has required that a 999 be returned to the issuer of the 835 to acknowledge receipt and, if appropriate, report errors encountered with the 835 data. The Molina CAQH Web Services have been enhanced to support this functionality. The CAQH Web Services supports two types of transaction protocols: Simple Object Access Protocol (SOAP) and Multipurpose Internet Mail Extensions (MIME).

Transactions can be sent in the following links:

- SOAP Transactions:
  - <u>https://TP-Registration.njrmmis.com/CAQH\_SOAPService/SOAPService.svc</u> during Trading Partner Registration and X12 Transaction Testing
  - <u>https://www.njmmis.com/CAQH\_SOAPService/SOAPService.svc</u> after Health PAS is fully functional
- MIME Transactions:
  - <u>https://TP-Registration.njrmmis.com/CAQH\_MIMEService/MIMEService.svc</u> during Trading Partner Registration and X12 Transaction Testing
  - <u>https://www.njmmis.com/CAQH\_MIMEService/MIMEService.svc</u> after Health PAS is fully functional

When requesting an 835 using the CAQH Web services:

- The PayloadID needs to be set to the Check/Electronic Funds Transfer (EFT) Payment ID for the desired 835.
- The PayloadType needs to be specified as X12\_835\_Request\_005010X221A1.
- The ProcessingMode needs to be set to Batch.
- The requesting Trading Partner ID must match the Receiver ID of the 835 transaction requested.

When sending a 999 response using the CAQH Web services:

- Set the 999 AK102 to the value of the GS06 value for the 835 that the 999 is in response to.
- The PayloadType should be set to X12\_999\_SubmissionRequest\_005010X231A1.
- The ProcessingMode needs to be set to Batch.

The following new operations and messages are now supported:

Operation	Request	Response
GenericBatchRetrievalRequ	GenericBatchRetrievalRequestMessage	GenericBatchRetrievalResponseMessage
est		
PayloadReceiptConfirmatio	PayloadReceiptConfirmationRequestMess	PayloadReceiptConfirmationResponseMess
n	age	age

#### PASSWORDS

Trading Partners create their own password at the time of registration and are required to update it every 60 days as per the Health PAS-OnLine requirements. Password must be at least seven characters long, contain at least one uppercase character, at least one numeral, and at least one special character.

## **5. CONTACT INFORMATION**

#### EDI CUSTOMER SERVICE

This section contains detailed information concerning EDI Customer Service.

Contact email:

- <u>NJRMMISINFORMATION@molinahealthcare.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>NJMMISEDI@molinahealthcare.com</u> after Health PAS is fully functional

#### EDI TECHNICAL ASSISTANCE

This section contains detailed information concerning EDI Technical Assistance.

Contact email:

- <u>NJRMMISINFORMATION@molinahealthcare.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>NJMMISEDI@molinahealthcare.com</u> after Health PAS is fully functional

#### **PROVIDER SERVICE NUMBER**

This section contains detailed information concerning the payment of claims.

Contact email:

- <u>NJRMMISINFORMATION@molinahealthcare.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>NJMMISEDI@molinahealthcare.com</u> after Health PAS is fully functional

#### **APPLICABLE WEBSITES/EMAIL**

The email addresses below can be used in contacting NJ Medicaid's EDI Support, Provider Services, and Provider Enrollment departments. These groups can provide assistance and answer questions relating to EDI file submissions, provider enrollment, and services.

Website:

- <u>https://TP-Registration.njrmmis.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>https://www.njmmis.com</u> after Health PAS is fully functional

EDI Support:

- <u>NJRMMISINFORMATION@molinahealthcare.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>NJMMISEDI@molinahealthcare.com</u> after Health PAS is fully functional

Provider Services:

• <u>NJRMMISINFORMATION@molinahealthcare.com</u> during Trading Partner Registration and X12 Transaction Testing • <u>NJMMISEDI@molinahealthcare.com</u> after Health PAS is fully functional

Provider Enrollment:

- <u>NJRMMISINFORMATION@molinahealthcare.com</u> during Trading Partner Registration and X12 Transaction Testing
- <u>NJMMISEDI@molinahealthcare.com</u> after Health PAS is fully functional

## 6. CONTROL SEGMENTS AND ENVELOPES

#### DELIMITERS

NJ Medicaid does not require the use of specific values for the delimiters used in electronic transactions. The suggested values are included in the following specifications.

#### ISA-IEA

The following ISA/IEA fields are the sender and receiver specific information listed in the 835 transactions. For all other fields refer to the transaction specific information table in section 10.

ISA06 - Interchange Sender ID will contain NJ\_MMIS\_4MOLINA.

ISA08 - Interchange Receiver ID will contain the Molina assigned trading partner ID.

ISA13 – Sender generated Interchange Control Number. This number will match the number in IEA02.

#### **GS-GE**

The following GS/GE fields are the sender and receiver specific information listed in the 835 transactions. For all other fields, refer to the transaction specific information table in section 10.

- GS02 Interchange Sender ID will contain NJ\_MMIS\_4MOLINA.
- GS03 Interchange Receiver ID will contain the Molina assigned trading partner ID.
- GS06 Sender generated Group Control Number, will match the number in GE02.

#### ST-SE

ST02 – Sender generated Transaction Set Control Number. This value must match the number in SE02. For all other fields, refer to the transaction specific information table in section 10.

## 7. PAYER SPECIFIC BUSINESS RULES AND LIMITATIONS

For Molina Healthcare specific business rules and limitation in association with the ASC X12N 835 Healthcare Claim payment Advice transaction, refer to section 10.

## 8. ACKNOWLEDGEMENTS AND/OR REPORTS

#### **REPORT INVENTORY**

The 835 Healthcare Claim payment Advice transaction files are generated once a week and report claims that are in their finalized status (paid, denied, and reversed). Once generated, the 835 file(s) can be downloaded via the web portal or through FTP for those providers that submit transactions from an FTP connection.

## 9. TRADING PARTNER AGREEMENTS

#### **TRADING PARTNERS**

A trading partner is defined as any entity with which Molina exchanges electronic data. The term electronic data is not limited to HIPAA X12 transactions. NJ Medicaid's Health PAS system supports the following categories of trading partner:

- Provider
- Billing Agency/Clearinghouse
- Health Plan

Molina will assign trading partner IDs to support the exchange of X12 EDI transactions for providers, billing agencies/clearinghouses, and other health plans.

All trading partners must be authorized to submit production EDI transactions. Any trading partner may submit test EDI transactions. The Usage Indicator, element 15 of the Interchange Control Header (ISA) of an X12 file, indicates if a file is test or production. Authorization is granted on a per transaction basis. For example, a trading partner may be certified to submit 837P (professional) claims but not certified to submit 837I (institutional) claim files.

## **10. TRANSACTION SPECIFIC INFORMATION**

The following table lists the specific requirements for reading and processing an ASC X12N 835 Healthcare Claim Payment Advice transaction file returned by Molina Healthcare.

Use these guidelines in conjunction with the official ASC X12N 835 TR3 document to read and process the downloaded 835 Healthcare Claim Payment Advice transaction files.

# \*\*Molina Claim ID formats for Encounters: Medical/Dental Encounters 1st character = "E" for encounter 2-digit year 3-digit Julian date 7-digit number Example: E171660000001

#### **Pharmacy Encounters**

2-digit year 3-digit Julian date 6th character = "M" for encounter 9-digit number Example: 17212M010002101

**Note:** Reversal claims are represented with an "R", example E171660000001R1; Adjustment (replacement) claims are represented with an "A", example E171660000001A1.

## APPENDICES

## 1. Implementation Checklist

The Health PAS-Online web portal user guides, contains all necessary steps for going live with Molina Healthcare in submitting specified EDI transactions, and receiving EDI responses, including the 5010 820. It also covers the following categories:

- Register for a Trading Partner ID
- Test with Molina Healthcare

The user guides can be found at:

- <u>https://TP-Registration.njrmmis.com/SitePages/User-Guides.aspx</u> during Trading Partner Registration and X12 Transaction Testing
- <u>https://www.njmmis.com/SitePages/User-Guides.aspx</u> after Health PAS is fully functional

#### 2. Business Scenarios

The matrix below lists the Health PAS Encounter Deny Edits. These edits are reported for denied encounters in the Encounter 835 CLP07 field. The edits are concatenated to the Encounter claim ID. If there are multiple edits those are separated by tick marks. Example: E181300000001-101'201.

Edit	Description			
101	No active provider contract			
102	Provider not active for Plan on DOS			
106	No attending physician ID (outpatient)			
158	Invalid Service Code on DOS			
201	No enrollment exists for claim start date			
202	No benefit for service			
204	Invalid accommodation days			
210	Member NOT enrolled on DOS			
218	Member lost eligibility during date span			
245	Multiple surgeries - claim submitted missing modifier 51			
272	Member does not have coverage code required on benefit			
301	Invalid or missing admission date			
303	Claim Total Mismatch			
304	Invalid Bill Type			
306	Discharge status is required for inpatient and SNF claims			
308	Invalid Admit Hour (0 23)			
309	Invalid Discharge Hour (0 23)			
313	Covered days do not match accommodation revcode days			
360	DRG is NOT in the selected DRG Group			
403	Diagnoses invalid for Medical Policy			
408	Line failed for Medical Policy Rule			
504	Invalid CPT/HCPCS code			

Edit	Description			
505	Invalid Revenue Code			
507	Revenue Code Requires HCPCS			
511	Invalid From DOS			
512	Invalid Thru DOS			
515	Invalid HCPCS for Revenue Code			
516	Surgical Procedure Requires HCPCS			
518	Admit type required for 11x bill type			
521	Procedure code not found or invalid for date of service			
522	Duplicate Claim Line (Same Provider/Member/DOS/CPT(Rev))			
523	Diagnosis code does not exist			
525	Diagnosis code is not valid on DOS			
531	Duplicate Mem/DOS/Service code/Pay To/Modifier			
532	Duplicate Mem/DOS/Service code/Pay To/Rendering Phys/Modifier			
702	Invalid CDT code on DOS			
703	Invalid tooth number			
704	Invalid tooth surface for tooth			
706	CDT already billed on this date by same provider			
707	CDT already billed on this date			
708	Invalid Tooth for CDT			
709	CDT requires tooth surface min/max count			
752	Invalid NDC Code for claim DOS			
753	Invalid CPT/HCPCs-NDC and/or Mod combination for claim DOS			
754	CPT/HCPCs and/or Modifier requires NDC Code			
755	HCPCs/NDC duplicate			
757	Rebateable NDC has no units			
758	Invalid Professional Claim Code on DOS			
916	Claim does not have any service lines			
6019	Newborn Eligibility Period Exceeded			
6028	Sub-Cap Provider Type Unmatched			
6111	DRG Processing for IP Claims			
6114	No DRG Found			
6200	Encounter Submitted in Denied Status from the MCO			

## **3.** Transmission examples

#### **Retrieving Outbound Transactions via Secured FTP Submission**

Trading Partners who receive X12 transactions via Secured FTP (file transfer protocol) may retrieve the 835e outbound transaction from their designated secured FTP Pickup location. Molina's internal file naming convention is as follows:

<Transaction Class>-<SenderID>-<ReceiverTPID>-<TransactionDate>-<TransactionTime>-<File ID>-<TransactionType>-<Prod or Test Indicator>

For example:

The outbound transaction would appear in this trading partner's FTP pickup location named:

Encounter-NJ\_MMIS\_4MOLINA-NJTPID\*\*\*\*\*-CCYYMMDD- HHMMSS-<FileID>-005010X221A1-P

## 4. Frequently Asked Questions
