

New Jersey
Medicaid Access to Physician Services Program
(NJ MAPS Program)

Operations Manual

Updated: May 2021

Scope of Manual:

This document provides a detailed description of New Jersey's implementation of the NJ Medicaid Access to Physician Services (MAPS) Program for Managed Care as well as Fee-for-Service payments within the New Jersey Medicaid program. This program is designed to improve access to primary care and specialty care services for Medicaid beneficiaries in light of the expansion of the Medicaid program as a result of the Affordable Care Act (ACA).

This manual describes the Division of Medical Assistance and Health Services (DMAHS)'s approach, details the payment methodology and program funding, and provides guidelines for continuing implementation of the NJ MAPS Program.

The payment methodology for the NJ MAPS Program is consistent with the final rule issued by CMS on Medicaid managed care rate setting and published on May 6, 2016, as well as additional guidance on "Pass-Through Payments in Medicaid Managed Care" issued by CMS on July 29, 2016 and related material published and/or proposed since then. This Program has been approved by CMS annually since SFY17.

Introduction:

Following the expansion of the New Jersey Medicaid program in January 2014, the NJ DMAHS investigated options to address provider payment rates and access to care. One of the identified approaches to help support this effort was to implement a Medicaid Access to Physician Services program that would provide Medicaid Managed Care Organizations (MCOs) with additional funding to pay physician practice plans affiliated with public medical and dental schools at a level consistent with their average commercial rate (ACR). These additional funds can be used to hire additional physicians, improve retention of existing physicians, and create population-based health care programs, thus preserving or expanding access to care.

New Jersey implemented the NJ MAPS Program on January 1, 2017 when the State issued actuarially sound managed care capitation rates that funded these higher payments. The core components of the program are outlined below and reflect suggestions provided by CMS to state officials.

Program Operations:

Medical Schools and Affected Practice Plans

The NJ Medicaid Access to Physician Services (MAPS) Program applies to physician and certain non-physician practitioners affiliated with all of the public medical and dental schools in New Jersey because these practitioners are key providers of primary, specialty, and subspecialty services to Medicaid beneficiaries. These entities are:

- Rutgers New Jersey Medical School
- Rutgers Robert Wood Johnson Medical School
- Rutgers School of Dental Medicine
- Rutgers School of Nursing
- Cooper Medical School of Rowan University
- Rowan University School of Osteopathic Medicine

Practitioners eligible for payments under this Program are either employed by or contracted with the Universities which operate the medical or dental schools or employed by or contracted with Cooper University Health Care or University Hospital.

Practitioner Types

- Physicians
- Certified Registered Nurse Anesthetists
- Certified Registered Nurse Practitioners
- Physician Assistants
- Dentists
- Certified Nurse Midwives
- Clinical Social Worker
- Clinical Psychologist
- Optometrist

MAPS Managed Care Services Covered

The patient care services provided by the eligible practitioners listed above that are deemed professional claims and billed on the CMS-1500 Form or the Medicaid/NJ FamilyCare Dental Services Claim Form MC-10 are those that shall be eligible for enhanced payments under this program.

Services provided to enrolled members who are dually eligible for Medicaid and Medicare services are excluded from this program. Services provided under sub-capitated arrangements are also excluded, with sub-capitation defined as when an MCO pays a network healthcare

practice/provider a set monthly fee that covers all the administrative and medical expenses of a defined population. However, to the degree that an MCO is using a sub-vendor to administer the healthcare benefits and network (such as dental benefits) but the MCO is still responsible for each medical expense and the sub-vendor is paying the network healthcare practice/provider based on a fee schedule, the Program (and the Minimum Fee Schedule) shall apply. Services paid for under a case rate or bundled rate are also excluded.

Case rate/bundled payment is defined here as either a payment of a single rate for a defined group of procedures and services (some of which may even be inpatient or outpatient) or as the reimbursement of health care providers on the basis of expected costs for clinically-defined episodes of care.

Payment Approach

As part of the MCO rate development process each year, a vendor hired by the NJ Department of Treasury calculates the ACR for each practice plan using commercial and Medicaid data supplied by the practice plans. Specifically, for each covered CPT code for a recent base year, the vendor compares the fee-for-service payments of each practice plan's top five commercial payers and the Medicaid fee-for-service payments in order to arrive at a percentage markup over Medicaid that is the commercial payment equivalent.

The vendor then takes that markup percentage over Medicaid and creates a minimum rate schedule by multiplying the Medicaid fee-for-service rate schedule for specialists by a statewide weighted average of the individual ACRs. MCOs are contractually obligated to pay at this minimum rate schedule or above for eligible providers throughout the MCO contract year. If a billed CPT code is not listed on the minimum rate schedule, MCOs pay according to the terms otherwise defined in the base contract agreement with the provider.

NOTE: The statewide minimum fee schedule for state fiscal year (SFY) 2022, beginning July 1, 2021 is contained in **Appendix A**.

The overarching principle of the payment model is to ensure MCO payment for each eligible code is the higher of the contracted payment rate as of March 31, 2016 or the new NJ MAPS minimum fee schedule (i.e., the NJ MAPS minimum fee schedule is the payment floor).

Another guiding principle in the design of the program is to minimize the administrative work to execute the billing and payment process for both the eligible providers and MCOs. The current working assumption is that the existing payment rules engines within the MCOs do not require any changes and that existing billing practices will remain the same for the providers. The only difference is the minimum rate table that is utilized at the end of the claims processing cycle.

Therefore:

- The MCOs will not need to alter their rules engines for reimbursement where those rules apply identically across all providers, merely that the NJ MAPS minimum fee schedule will be the base fee schedule onto which those reimbursement rules apply unless the contracted payment rate as of March 31, 2016 is already higher than the NJ MAPS minimum fee schedule.
- In those instances where the rules regarding codes and modifier combinations do not apply identically across all providers, then the NJ MAPS minimum fee schedule shall strictly apply as a reimbursement floor, per unit of service, unless the contracted payment rate as of March 31, 2016 is already higher than the NJ MAPS minimum fee schedule.
- Providers are responsible for submitting an invoice to an MCO at or above the Minimum Fee Schedule to be eligible for the full enhanced rate.

Additional points to note about certain modifiers under the guidelines above:

- Following the existing rules engines:
 - Modifier 50 (Bilateral Services) shall be paid at 1.5 times the single unit rate
 - Modifier 62 (Two Surgeons) shall be paid at 0.625 times the single rate unit
 - Modifier 22 (Increased Procedural services) shall be paid at 1.2 times the single rate unit
 - Anesthesia Pricing Modifiers QK, QX, and QY shall follow standard ASA reimbursement guidelines of 0.5 times the single rate unit as applied to the minimum fee schedule.
- Conversely, the following shall not apply and the minimum fee schedule shall instead strictly apply as a reimbursement floor per unit of service unless the contracted payment rate as of March 31, 2016 is already higher:
 - Modifier 51 (Multiple Procedure Discounts)
 - Modifier 58 (Related Procedure during post-operative period)
 - Modifier 78 (Unplanned return to the operating room)
 - Place of Service Code discounts
- Regarding Modifier 26, in instances where CPT codes with modifier 26 are not on the minimum fee schedule, the percentage discount for Modifier 26 from the Medicare fee schedule shall instead be applied to the minimum fee schedule.

The state's independent actuaries determine the dollar value to be included in the MCO capitation Per Member Per Month (PMPM) rates to permit the MCOs to pay enhanced fees to physician and non-physician practitioners employed by or contracted with the

Universities in New Jersey which operate the public medical or dental schools or employed by Cooper University Health Care or University Hospital. The PMPM that each MCO receives on a monthly basis includes the estimated cost of the NJ MAPS Program. DMAHS reviews and approves these results. The state's actuaries review and certify these rates as being actuarially sound.

NOTE: No later than October, the participating entities will provide state officials with a list of eligible practitioners along with their individual and group NPI numbers for use for the coming Fiscal Year. State officials will then provide to the MCOs the list of eligible practitioners. The eligible group NPI numbers for the MCO contract year beginning July 1, 2021 is contained in **Appendix B**. The annual attestation and reporting form for group NPI numbers for eligible practitioners is contained in **Appendix H**.

If a participating entity employs a new practice group during a contract year and creates a new group number, that new group will not be eligible for enhanced payments under this program until the beginning of the next rating period. If a new practitioner is added to an existing group number, services provided by that practitioner are eligible for enhanced payments once the provider is credentialed with the MCO.

Eligible and participating practice plans that enter into a contract with an MCO are eligible to receive the enhanced NJ MAPS Program rate once under contract, and once the provider is credentialed with the MCO.

The participating physician practice plans and the MCOs will both be required to report on a quarterly basis throughout the contract year on the increased funds they have received (in the case of the practice plans) or expended (in the case of the MCOs) as a result of the NJ MAPS Program. Copies of these quarterly reports are included in **Appendix C** and **Appendix D** of this operations manual. Reports from all groups shall be provided to DMAHS no later than 45 days following the close of each quarter.

Risk Corridor

Because utilization of Qualified Practitioners will vary across MCOs, the State mitigates risk associated with overpaying or underpaying a particular MCO associated with the capitation increase for these particular providers and services as follows:

1. Each MCO is required to spend at least 99%, but no more than 101% of the medical portion of the capitation increase associated with the program for claims under the Medicaid Access to Physician Services Program.
2. Each MCO shall submit a separate final settlement calculation within 11 months of the end of the contract year accounting for incurred claims consisting of

- claims runout of at least six months and an estimate of the incurred but not paid claim liability. The State will confirm the calculations.
3. To the extent the incurred claims spent by an MCO are less than 99% of the additional medical portion of the funding on claims under the Medicaid Access to Physician Services Program, the difference between the incurred claims amount spent and 99% will be paid to the pool by that MCO.
 4. To the extent the incurred claims spent by an MCO are more than 101% of the additional medical portion of the funding on claims under the Medicaid Access to Physician Services Program, the difference between the incurred claims spent and 101% will be paid to that MCO by the funds available in the pool.
 5. If funds in the pool are not sufficient to appropriately reimburse MCOs who spent more than 101%, then the State will contribute additional funds to the pool to cover the shortfall.
 6. If funds in the pool are more than sufficient to reimburse MCOs who spent more than 101%, excess funds will be withdrawn by the State.
 7. The Medicaid Access to Physician Services Program Risk Corridor is a risk mitigation strategy based on assumptions underlying the increased funding.
 8. The State maintains the option as to (i) whether or not to continue this Medicaid Access to Physician Services Program and/or the Risk Corridor in subsequent years and (ii) if continued, whether any changes to the Risk Corridor allocation and distribution process are necessary. Any return of funds to the State will be refunded to the federal government at the same FMAP as originally claimed by the State.
 9. Due to the COVID-19 pandemic, DMAHS implemented a program wide risk corridor beginning January 1st 2020 and ending June 30th 2022. As a result, the SFY20 MAPS risk corridor was only effective for the first six months of SFY20 (July to December of 2019).

NOTE: Additional information of the Risk Corridor is contained in **Appendix I.**

Funding Approach

The NJ MAPS Program is entirely funded by transfers of existing state legislative appropriations, mostly from the parent universities of the medical schools. The SFY22 Appropriations Act contains language that permits such transfers at the discretion of the Department of Treasury.

Rutgers University, Rowan University, Cooper University Hospital, and University Hospital have

signed memorandums of understanding with the state whereby they agree to the budgetary transfers to fund the NJ MAPS Program and state Medicaid officials agree to use the transferred funds to finance the increased payments to the MCOs under the NJ MAPS Program.

The exact sources of the funding by school for SFY22 payments appear in the Appropriations Handbook for the given fiscal year for Rutgers, Rowan University School of Osteopathic Medicine, Cooper, and University Hospital.

As part of the annual MCO rate setting process, the state's actuaries calculate the PMPM increase for the non-dual capitation rates for both the acute care and MLTSS program that is needed to fund the NJ MAPS Program.

The transfers from existing state appropriations to fund the NJ MAPS Program is equal to the cost of the state share to NJ Medicaid to finance the program plus any fees to be paid to consultants administering the NJ MAPS Program. In general, on a monthly basis, transfers from existing state appropriations equal the PMPM increases needed to fund the state share of the NJ MAPS Program based on projected enrollment and utilization. The transfers from the existing state appropriations for the year are locked into eleven months of identical transferred amounts per institution. The transfer from existing state appropriations on the twelfth month will reconcile projected enrollment and actual enrollment over the previous eleven months.

NOTE: If, however, during the fiscal year, the total actual enrollment to date differs from projected enrollment by more than 10%, a re-evaluation of the monthly transfers of existing state appropriations will be triggered and future transfers will be adjusted to reflect a revised projection of enrollment.

At the completion of the actuarial calculations of the current rate year, and the PMPM increases established to fund the NJ MAPS Program, program enrollment and utilization projections determine the estimated cost of the MAPS program for the upcoming SFY and MCO contract year.

The total non-federal costs are then apportioned between program participants based on their relative percentage of total expected program benefit, as calculated by the State's actuary.

If the actuary projects that Participant A will receive 25% of total increase in payments, then Participant A will be responsible for 25% of the total State-share of those payments.

NOTE: Additional information is contained in **Appendix J**.

Approximately eight months following the close of the SFY, State officials complete the cost allocation calculation a second time using the latest actual claims data available (including "incurred but not reported" or IBNR). The resulting school- and hospital-specific allocations from this analysis are compared to the amounts actually transferred from appropriations in the prior year. Any overpayment or underpayment is then included in the current year's

appropriation transfer calculation to “true-up” each entity’s share of MAPS Program costs for the prior fiscal year.

Under no circumstance, however, may the net value of credits from this true-up exceed the value of funds returned to the State from the MCOs based on risk-corridor underspending. Similarly, any net additional costs allocated during the true-up may not exceed additional State costs resulting from risk-corridor overspending.

At the discretion of State staff at the Department of Human Services, a second risk corridor adjustment impacting MCO payments may be performed at some point greater than 12 months following the close of a fiscal year. In the event of such an adjustment, the current year MAPS calculation will also be modified to distribute the net overpayment or underpayment resulting from the second risk corridor adjustment.

Participants will be notified by Office of Management and Budget (OMB) staff of the required funding for the coming SFY and contract year. Specifically, each participant will receive the calculations outlined in **Appendix J** (for their institution only) that will govern the amount of funds that will need to be transferred from their legislative appropriation over the course of that year, as well as the anticipated exact monthly transfer of existing legislative appropriations.

Currently, the state’s payments to MCOs of their PMPMs occur once a month and the MCOs receive their capitation payments on the last Friday of the month. Those payments are retrospective, and while there is no formal reconciliation, a 12-month “look-back” process accounts for any changes in eligibility or enrollment.

At the beginning of each subsequent state fiscal year, OMB will reserve funding appropriated to each of the participating medical schools and hospitals equal to the amount needed to fund enhanced NJ MAPS Program payments (as calculated by Medicaid actuaries, and including any adjustments for prior year risk pool overpayments or underpayments, and prior year actual utilization proportions by school) plus consultant fees, plus 10% to account for any unexpected increase in enrollment. OMB will process eleven uniform monthly appropriation transfers to DMAHS equal to one-twelfth of the total funding estimate, with the final monthly transfer serving as a true-up for actual enrollment during the course of the year.

NOTE: Additional information about the funding approach is contained in **Appendix I**.

Federal Approval

The MAPS program is outlined in the state’s contracts with the MCOs and detailed in this operations manual. As part of the approval process of the state’s MCOs contracts, a CMS pre-print related to the MAPS program is drafted and submitted annually. CMS has approved the state plan amendment that contains information pertaining to the expansion

to Fee-For-Service and additional practitioner types.

Annual Attestation

To guard against double-claiming of Medicaid program costs, officials at both University Hospital (Newark) and Cooper University Hospital will annually submit to NJ Medicaid officials a letter attesting that the clinical services to patients (i.e. professional claims) covered under the NJ MAPS Program and billed on the CMS-1500 Form or the Medicaid/NJ FamilyCare Dental Services Claim Form MC-10 are either not included in the hospital's cost reports, or are included but subsequently excluded as part of the hospital cost reporting process, so that they have no impact on Medicaid inpatient, outpatient or DSH reimbursement for the hospital. Attestations are due along with the required documentation to calculate the ACR no later than December 8, 2021.

NOTE: Attestation forms are contained in **Appendix E**.

SFY22 Implementation

The vendor hired by NJ Department of Treasury calculated the ACR for each practice plan using FYE June 30, 2020 commercial data supplied by the practice plans. The vendor also calculated a minimum rate schedule by multiplying the most recently available Medicaid fee-for-service rate schedule by a statewide weighted average of the individual ACRs.

DMAHS has undertaken a reviewal and approval process, and it was certified by DMAHS actuaries.

CMS approves the NJ MAPS program when it approves the MCO contract and rates. The vendor hired by NJ Department of Treasury recalculated the ACR for each practice plan and recalculated the minimum rate schedule for SFY22, effective July 1, 2021. The SFY22 statewide weighted average is 391% of the DMAHS fee-for-service specialist rate. This statewide weighted average is changed from SFY21.

Measuring MAPS Program Impact:

Participating practice plans are required to submit annual reporting of quality measures as outlined in **Appendix L**. These measures were at the recommendation of both CMS and the State that adhere to the shift in reporting to more outcomes-based measures than access measures. Any modifications made to quality measures would be practice plan specific and would not impact reporting by other providers.

State officials may periodically request from the participating practice plans additional evidence of the impact of MAPS on access of Medicaid services to Medicaid clients.

Potential Changes to the Program in Succeeding Years:

During SFY17, in response to the new statewide minimum fee schedule that the MCOs followed, the practice plans began to expand access to services.

DMAHS chose to adopt the above payment approach for SFY17, SFY18, SFY19, SFY20, SFY21, and SFY22 because of a desire to have the program commence on January 1, 2017. However, DMAHS's preference is to incentivize alternative payment methodologies and innovative payment solutions to improve population health. The State desires to evolve the NJ MAPS Program over time to that end.

DMAHS officials indicated in discussions with CMS officials their support for a program approach that is not utilization-based and instead is centered on a dedicated add-on amount to the capitation payment to the MCOs.

Instead of continuing a minimum statewide fee schedule in future years, DMAHS would like to see the physician practice plans and MCOs create partnerships that lead to alternative payment methodologies that drive quality improvements and innovative payment solutions for population-based health programs. This policy comports with the delivery system reform visions outlined in New Jersey's Section 1115 Demonstration Waiver.

A quality- and access-centered approach requires detailed discussions, data exchange, and analysis among the practice plans, the MCOs, and State officials. Such work is anticipated to take several years.

MAPS Program Expansion to Fee-For-Service

In the Fall of 2018, in response to requests from the medical schools participating in MAPS, New Jersey state officials decided to expand the MAPS program to Medicaid fee-for-service. Hereafter, we refer to the fee-for-service component of the program as "MAPS FFS". This is distinguished from the Medicaid managed care component of the MAPS program which has been effective since January 1, 2017 (hereafter referred to as "MAPS managed care") which has been outlined in the preceding portion of this operations manual.

State officials published a public notice to that effect on December 3, 2018. The public notice stated that the MAPS FFS program would be effective January 1, 2019, contingent upon subsequent federal approval.

Both components of the MAPS program are similar in terms of policy and goals. Like MAPS managed care, MAPS FFS seeks to expand access to care for Medicaid clients by reimbursing

professional services provided by the physician practice plans affiliated with the publicly owned medical schools at a level commensurate with their average commercial rate.

However, MAPS FFS is structurally different than MAPS managed care:

- MAPS FFS is part of the New Jersey's Medicaid state plan, whereas MAPS managed care is part of the state's contracts with the Medicaid MCOs. As such, MAPS FFS is created through an amendment to the Medicaid state plan.
- CMS approval was granted on August 22, 2019. The program was implemented retroactively on January 1, 2019, which was the date of the public notice.
- MAPS FFS involves a quarterly, supplemental, retrospective payment, whereas MAPS managed care involves a minimum fee schedule paid in real time.
- MAPS FFS involves payments directly from DMAHS to the physician practice plans, whereas MAPS managed care involves payments from the Medicaid MCOs to the physician practice plans.
- While the MAPS FFS program strives to utilize the same average commercial rate calculations (ACR) as the MAPS managed care program, the ACRs in MAPS FFS are set individually for each participating practice plan, which follows federal guidance, whereas in MAPS managed care the ACRs of the practice plans are blended to form one statewide minimum fee schedule.
- While the MAPS managed care program locks in the group provider numbers for MAPS participating providers for an MCO contract year, new group provider numbers can be added to MAPS FFS as soon as they become MAPS eligible.
- MAPS managed care was expanded to cover four additional professional classifications as of July 1, 2019. MAPS FFS covered these additional classifications from the start of the program, January 1, 2019.
- MAPS FFS program follows CMS guidance on Medicaid physician upper payment limit programs.

Medical Schools and Affected Practice Plans

The medical schools and affected practice plans for MAPS FFS will be the same as MAPS managed care (see page 2 of this operations manual). Rutgers University Behavioral Health Care (which was always a MAPS-eligible entity) will now participate in MAPS FFS, whereas it was not in MAPS managed care given that behavioral health care is largely carved out of the Medicaid MCOs.

Practitioner Types

Under the MAPS FFS Program, payments are limited to the following practitioner types:

- Physicians
- Certified Registered Nurse Anesthetists
- Certified Registered Nurse Practitioners

- Physician Assistants
- Dentists
- Certified Nurse Midwives
- Clinical Social Workers
- Clinical Psychologists
- Optometrists

Services Covered

The MAPS FFS program covers Medicaid services provided by MAPS eligible practitioners to Medicaid clients and billed to DMAHS as a professional claim (CMS 1500 or the MC-10 forms) whether for specialists or non-specialists.

Services for which Medicaid is not the primary payer, including services provided to clients who are dually eligible for Medicaid and Medicare, are excluded from this program. However, services to Medicaid clients who have additional insurance for which Medicare or commercial insurance does not pay for that service, may still be included in MAPS FFS.

Payment Approach

MAPS FFS does not alter the practice plans' current billing approach that exists for MAPS eligible providers in Medicaid fee-for-service based on the existing fee schedule. MAPS FFS is a supplement to that, employing a quarterly retrospective lump sum payment in order to reimburse MAPS eligible providers at a level commensurate with their average commercial rate. Unlike MAPS managed care, this does not establish a minimum fee schedule.

Each year, as part of the MAPS managed care program, a vendor hired by the NJ Department of Treasury calculates the ACR for each practice plan using commercial and Medicaid data supplied by the practice plans. Specifically, for each covered CPT code for a recent base year, the vendor compares the fee-for-service payments of each practice plan's top five commercial payers and the Medicaid fee-for-service payments in order to arrive at a percentage markup over Medicaid that is the commercial payment equivalent. It is the intent of state officials to utilize the same ACR calculations by practice plan for both the MAPS managed care and MAPS FFS programs.

For some of the MAPS participating entities that are deemed to have insufficient commercial payors or payor data DMAHS will adopt the ACR of a related practice plan. Below is a description of the steps that are necessary in determining the supplemental payment amount for each quarter of the MAPS FFS program.

a. Obtain NPI numbers from medical schools and practice plans to identify all eligible providers

In order to obtain the Medicaid claims data for the specified time period, the vendor will request the NPI numbers for all qualifying provider types from the MAPS eligible medical schools and practice plans. For each quarter, the vendor will identify and DMAHS will approve a list of eligible providers from information collected from the medical schools and practice plans.

b. Pull eligible paid claims from MMIS

For each quarter, DMAHS will query its MMIS system for paid Medicaid claims for qualifying provider types as defined above for the previous quarter's claimed services (e.g. in Q4 2021 request Q3 2021 paid Medicaid claims). The claims need to be for services provided January 1, 2019 or later. The extracted data will contain the following columns:

- 1. Group NPI**
- 2. Individual (Rendering) NPI**
- 3. Provider Rendering Type Code** – a code indicating the job classification of the provider
- 4. Provider Rendering Type Description** – the description of the code indicating the job classification of the provider
- 5. Procedure Code** – the current CPT procedure code used to identify the service performed or the supply given to the recipient
- 6. Modifier** – A modifier code used to further define the service identified by the procedure code
- 7. Sum of Claim Count** – the sum of the number of Medicaid claims
- 8. Sum of Paid Quantity** – the sum of total Medicaid units (including base and time units and additional units for anesthesia, if applicable)
- 9. Sum of Paid Amount** – the sum of total Medicaid payments
- 10. Quarter of Claim Payment Date**
- 11. Year of Claim Payment Date**
- 12. Claim FFP Description**

c. Determine the amount commercial insurance would have paid (i.e. calculate the upper payment limit)

The vendor will then calculate by participating practice plan the amount commercial insurance would have paid for those claims. This calculation is specific to each practice plan and utilizes that practice plan's individually calculated ACR as determined by DMAHS.

d. CPT codes will be adjusted as follows to comply with CMS guidance and to meet the program goals of DMAHS:

- a. Clinical diagnostic laboratory codes will be limited to Medicare instead of

the average commercial rate.

- b. CPT codes with a technical component will be excluded from the supplemental payment as this is not a professional service. This includes radiology codes with a “global rate” with both the technical and physician component. Only radiology codes with a modifier 26 (physician component) should be included in the calculations.
- c. Claims paid under the Office Based Addictions Treatment (OBAT) program, identified with a HF modifier, will be excluded from the supplemental payment.
- d. Level II CPT codes for non-physician services will also be excluded from the MAPS FFS program.

e. Calculate the supplemental payment amount

For each practice plan, the amount Medicaid actually paid for those claims is subtracted to establish the total allowable supplemental payment amount for that quarter. This difference will equal the lump sum, retrospective MAPS FFS payment for the provider for that quarter.

f. Provider Notification of Payment

DMAHS providers will be notified of payment amounts and the redirected appropriations amounts via a letter from the vendor. Lump sum payments will occur within 3 months after each quarter to a group Medicaid Provider number.

Funding Approach

The NJ MAPS Program is entirely funded by transfers of existing state legislative appropriations, mostly from the parent universities of the medical schools. The SFY22 Appropriations Act contain language that permits such transfers at the discretion of the Department of Treasury.

Rutgers University, Rowan University, Cooper University Hospital, and University Hospital have signed memorandums of understanding with the state whereby they agree to the budgetary transfers to fund the NJ MAPS Program and state Medicaid officials agree to use the transferred funds to finance the increased payments to the MCOs under the NJ MAPS Program.

The exact sources of the funding by school for payments appear in the Appropriations Handbook for the given fiscal year for Rutgers, Rowan University School of Osteopathic Medicine, Cooper, and University Hospital.

The transfers from existing state appropriations to DMAHS to fund the MAPS FFS Program is equal to the cost of the state share to NJ Medicaid to finance the MAPS FFS program plus any fees to be paid to consultants administering the MAPS FFS program. In general, on a quarterly basis, transfers from existing state appropriations equal the state share of the upcoming

scheduled MAPS FFS quarterly payment. In this instance, the next monthly payment will be adjusted for the reconciliation.

Because the MAPS FFS payments are retrospective, they will vary by volume and no reconciliation of the funds transfers will be needed, except in the instance where a MAPS participating entity does not have sufficient room in its monthly state legislative appropriation to fund a full quarterly MAPS FFS payment.

FFS Implementation

State officials may periodically, and at their discretion, ask for access metrics from the MAPS participating medical schools and practice plans that illuminate the effect of the MAPS FFS program and document how it has expanded access to Medicaid services for Medicaid clients.

NEW JERSEY MEDICAID ACCESS TO PHYSICIAN SERVICES PROGRAM

QUARTERLY REPORT BY MANAGED CARE ORGANIZATIONS

Report for the time period ending:

Quarterly reports are due within 45 days of the end of the quarter

NAME OF MCO:

DURING THIS QUARTER, DID YOU HAVE CONTRACTS WITH THE FOLLOWING PRACTICE PLANS? (YES/NO)

Rutgers University NJMS (University Physician Associates)	
Rutgers School of Dental Medicine	
Rutgers University RWJ	
University Hospital (Newark)	
Cooper University Health Care	
Rowan University School of Osteopathic Medicine	

In the table below, please report the base payments and actual payments to the eligible providers at the following physician practice plans.

Base Payments refers to claims that would have been paid under contracted payment rates as of March 31, 2016 to NJ MAPS Program eligible providers (**do not include IBNR estimates on this tab**). See Notes 1-6 below when computing.

Actual Payments refers to claims paid under the NJ MAPS Program's Minimum Fee Schedule (**do not include IBNR estimates on this tab**). See Notes 1-6 below when computing.

Please note:

1. Exclude services provided to dual-eligibles (program only covers services where Medicaid is the primary payer) and exclude services covered under subcapitation arrangements.
2. Utilize the Group NPI #s in Appendix B of the operations manual for the NJ MAPS Program to identify practice plans and eligible providers.
3. Quarterly reports should restate all quarters since the beginning of the NJ MAPS program.
4. Claims should only be reported if the Actual Payment is greater than the Base Payment.
5. The Actual Payment should only be reported up to the ACR (i.e. amounts over the ACR should not be included).
6. Any other claim amounts paid to the MAPS providers should not be included.

Certification of Non-Physician Cost

New Jersey Medicaid Access to Physician Services Program

Participation in the New Jersey Medicaid Access to Physician Services Program is in accord with the New Jersey Department of Human Services (DHS) Division of Medical Assistance and Health Services' (DMAHS) approved by CMS and described in the state's operations manual for the Medicaid Access to Physician Services Program. This form serves as certification to certain facts, representations and assurances regarding Health System employed physician and non-physician practitioners' cost.

I, _____, do hereby certify:
(print name)

- That University Hospital (UH) is a participant in the New Jersey Medicaid Access to Physician Services program. While University Hospital does not directly employ physicians it does employ non-physician practitioners that are part of this program.
- That UH reports non-physician practitioner salaries on form CMS-2552-10, Medicare Hospital and Hospital Health Care Complex Cost Report, Worksheet A under different cost centers, and the fringe benefits associated with these non-physician providers are reported under the fringe benefits cost center on Worksheet A. This is done so that all of UH's expenses appear on Worksheet A and agree with UH's audited financial statements.
- That the costs associated with the non-physician practitioners performing professional services are then excluded as an adjustment to expenses as part of the hospital cost reporting process on Worksheet A-8. Therefore, the professional services costs of the non-physician practitioners at UH are not part of UH's hospital costs as they relate to any Medicaid inpatient, outpatient or Disproportionate Share Hospital reimbursement.
- That the person signing the certification on behalf of UH is legally authorized to bind the hospital and attest to the matters described above.

8.5.11 FINANCIAL PROVISIONS

New Jersey Medicaid Access to Physician Services Program (Program) – a program to preserve and promote access to medical services for Medicaid clients and underserved populations through setting minimum rates for professional services provided by qualified physicians and non-physician professionals affiliated with schools of medicine or dentistry.

- A. Beginning January 1, 2017, the Contractor shall make payments to a Qualified Practitioner for services listed on the fee schedule attached as Exhibit __ in amounts at least equal to the amounts identified in Exhibit __ when these services are provided to all of the Contractor’s Members except enrolled members who are dually eligible for Medicaid and Medicare services.
- B. For services that are not listed in the fee schedule attached as Exhibit __ but are otherwise covered by the Contractor, the Contractor shall make payments to a Qualified Practitioner as specified in the Qualified Practitioner’s provider agreement with the Contractor
- C. Subcapitated arrangements between a Contractor and a Qualified Practitioner are excluded from this Program.
- D. The Contractor will follow the NJ MAPS Operations Manual associated with the program attached as Exhibit ____.
- E. For purposes of the Medicaid Access to Physician Services Program, a Qualified Practitioner is a physician, certified registered nurse anesthetist, certified registered nurse practitioner, physician assistant, dentists, optometrists, clinical social workers, clinical psychologists or certified nurse midwives who bills for services under one of the Group NPI #s that are identified in Exhibit __ and is employed by or under contract with any of the following:
 - Rutgers University New Jersey Medical School
 - Rutgers University Robert Wood Johnson Medical School
 - Rutgers School of Dental Medicine
 - Rutgers School of Nursing
 - Rowan University School of Osteopathic Medicine
 - Cooper Medical School of Rowan University
 - Cooper University Health Care
 - University Hospital (Newark)
- F. The Medicaid Access to Physician Services Program will be funded through an increase to the non-dual capitation rates for both the acute care and MLTSS program.
- G. The Contractor shall report claims paid under the Medicaid Access to Physician Services Program on a quarterly basis through the reporting template that will be developed and provided by the State.
- H. Because the Medicaid Access to Physician Services is a new program and utilization of Qualified Practitioners will vary across Contractors the State will mitigate risk associated with over paying or underpaying a particular Contractor associated with the capitation increase for these particular providers and services as follows:

1. The Contractor is required to spend at least 99%, but no more than 101% of the medical portion of the capitation increase associated with the program for claims under the Medicaid Access to Physician Services Program.
2. The Contractor shall submit a separate final settlement calculation within 11 months of the end of the contract year accounting for incurred claims consisting of claims runout of at least six months and an estimate of the incurred but not paid claim liability. The State will confirm the calculations.
3. To the extent the incurred claims spent by the Contractor are less than 99% of the additional medical portion of the funding on claims under the Medicaid Access to Physician Services Program, the difference between the incurred claims amount spent and 99% will be paid to the pool by the Contractor.
4. To the extent the incurred claims spent by the Contractor are more than 101% of the additional medical portion of the funding on claims under the Medicaid Access to Physician Services Program, the difference between the incurred claims spent and 101% will be paid to the Contractor by the funds available in the pool.
5. If funds in the pool are not sufficient to appropriately reimburse Contractors who spent more than 101%, then the State will contribute additional funds to the pool to cover the shortfall.
6. If funds in the pool are more than sufficient to reimburse Contractors who spent more than 101%, excess funds will be withdrawn by the State.
7. The Medicaid Access to Physician Services Program Risk Corridor is a risk mitigation strategy based on assumptions underlying the increased funding.
8. The State maintains the option as to (i) whether or not to continue this Medicaid Access to Physician Services Program and/or the Risk Corridor in subsequent years and (ii) if continued, whether any changes to the Risk Corridor allocation and distribution process are necessary.
9. Any return of funds to the State will be refunded to the federal government at the same FMAP as originally claimed by the State.

Group and Individual NPI Report Form

NJ Medicaid Access to Physician Services (MAPS) Program

Instructions:

Medical School or Eligible Institution - Identify the medical school or eligible institution to which this report refers

Group NPI - Refers to the group national provider identification number

Sub Part NPI (where applicable) - please include all sub part NPI numbers when a provider bills under more than one group number

Individual NPI - Refers to the individual practitioner's national provider identification number

Tax ID - Refers to the Federal Tax ID number for the Group NPI

Practitioner Name - Refers to the practitioner's full legal name as it appears on official documents

Practitioner Specialty - Refers to the practitioner's classification

General Classification - Refers to the practitioner's general classification. NOTE: The NJ MAPS Program **only** covers physicians, dentists, physician assistants (PA), certified registered nurse anesthetists (CRNA), certified registered nurse practitioners (CRNP), certified nurse midwives, clinical social worker, clinical psychologist, optometrist

Arrangement - Refers to the practitioner's contractual or employment arrangement with the medical school. NOTE: Practitioners must be either an employee or operate under a contractual arrangement with the medical school.

Addition(New) -Indicate whether this is a new provider from most recently submitted report and include any comments

Deletion -Indicate whether provider listed from most recently submitted report was removed and include any comments

NJ FamilyCare

New Jersey Medicaid Access to Physician Services (NJ MAPS) Program Appendix I

Start Date = January 1, 2017

Medicaid Access to Physician Services Program - Overview

For the purposes of this presentation, the payments pertaining to the NJ MAPS Program are also known as the “Access Payment.”

GOAL: Expand access to physician services to the low income population

By redirecting General Fund appropriations from Higher Education to the Dept. of Human Services, practitioners affiliated with participating NJ medical schools would receive increased reimbursement from the MCOs.

- Start date = January 1, 2017

Overview

The Access Payment only applies to services billed on physician and dental claim forms (CMS1500 and MC-10 respectively). *Hospital services billed on form UB04 are ineligible. Services provided to dual eligibles are not covered by the program nor are services provided under sub-capitated arrangements.*

Services rendered by the following practitioners would be eligible for the Access Payment:

- Physicians
- Certified registered nurse practitioners
- Certified registered nurse anesthetists
- Physician Assistants
- Dentists

Participating Entities:

- Cooper Medical School of Rowan University
- Cooper University Health Care
- Rowan University School of Osteopathic Medicine
- Rutgers New Jersey Medical School
- Rutgers School of Dental Medicine
- Rutgers Robert Wood Johnson Medical School
- Rutgers School of Nursing
- University Hospital (Newark)

Overview

The Access Payment would be included within the State's actuarially sound capitation rates paid to the MCOs.

- All five MCOs receive statewide rates; therefore, participating practice plans would need to contract with all MCOs.
- The State's contract with the Medicaid MCOs would contain the Access Payment fee schedule for eligible services as well as the eligible practice plans that could receive this enhanced payment.

Payment Approach

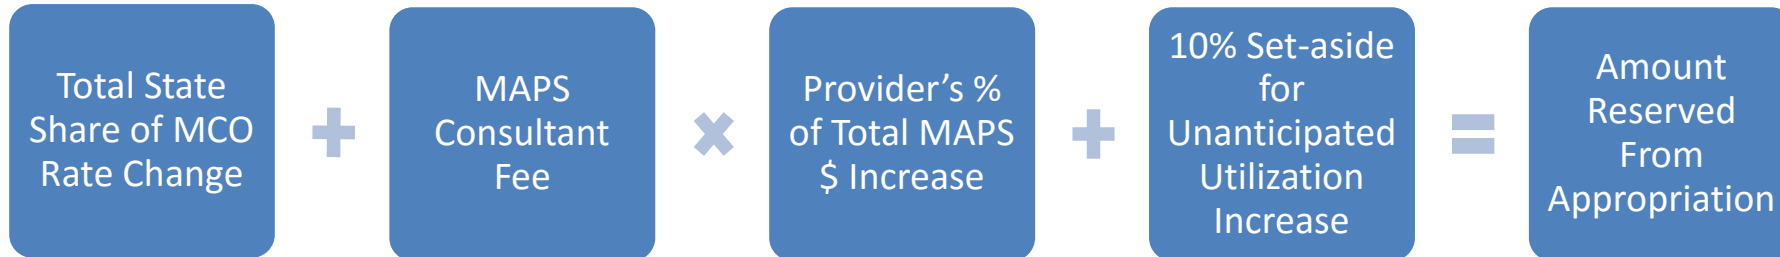

- Higher Ed appropriations would cover the state's share of capitation payments made to MCOs
- MCOs would be required to pay providers at a level equal to or greater than a statewide Minimum Fee Schedule that is included in the state's MCO contract
- Reimbursement in the form of increased rates would be tied to current utilization
- Exact return for the providers unknown and dependent on utilization
- Risk corridor created that ensures that (1) MCOs pay out at least 99% of the medical component of their Access Payments or pay them into a risk pool, (2) MCOs with higher costs (over 101%) are subsidized by the risk pool, and (3) state will make increased payments to or withdrawals from the risk pool if overall MCO experience is outside of the risk corridor.

Funding Approach

- The State's share of the enhanced Medicaid payments would be provided from existing State appropriations to the higher education facilities
- During each year, funds would be transferred by OMB from each school's appropriation to the Dept. of Human Services on a monthly basis to fund the increased capitation payments to the five Medicaid MCOs.
- Individual provider's share of the additional cost associated with access payments would be based on each school's share of the overall increase in funding to all providers in the MAPS program.
- Monthly transfers would be based on estimated enrollment and utilization, with a final adjustment for actual enrollment reflected in the June transfer.
- In the first six months of CY2017, appropriations that would normally be transferred to the Dept. of Human Services in first three months of operation would instead be added to the April, May, and June transfer amounts. This delay is meant to aid the schools' cash flow while the initial enhanced payments are being processed.

Funding Approach

Year One Calculation of Provider Contributions to MAPS

Subsequent Year Calculation of Provider Contributions to MAPS

RE: Title XIX State Plan Amendment (SPA), Transmittal # NJ 19-0002

Dear Ms. Grant:

We have reviewed the proposed New Jersey State Plan Amendment 19-0002, which was submitted to the New York Regional Operations Group on March 29, 2019. The SPA authorizes supplemental payments to specific physician practice groups. The supplemental payments will be calculated as the difference between the fee for service schedule and the practice plans' average commercial rates based on CMS guidance.

Based on the information provided, the Medicaid State Plan Amendment 19-0002 was approved on June 11, 2019. The effective date of this amendment is January 1, 2019. We are enclosing the approved CMS-179 and the plan pages.

If you have any additional questions or need further assistance, please contact Yvette Moore at (646) 694-0915 or Yvette.Moore@cms.hhs.gov.

Sincerely,

Nicole McKnight
Acting Deputy Director
New York Regional Operations Group

Supplemental Payments for Physician and Professional Services at Qualifying
Professional Services Practices

1. Qualifying Criteria:

Physicians and other eligible professional service practitioners as specified in 2 below will qualify for supplemental payments for services rendered to Medicaid beneficiaries. To qualify for the supplemental payment, the physician or professional service practitioner must be:

- a. licensed by the State of New Jersey;
- b. enrolled as a New Jersey Medicaid provider.

2. Qualifying Providers Are those associated with the following medical schools:

- Rutgers New Jersey Medical School
- Rutgers Robert Wood Johnson Medical School
- Rutgers School of Dental Medicine
- Rutgers School of Nursing
- Cooper Medical School of Rowan University
- Rowan University School of Osteopathic Medicine

Practitioners eligible for payments under this Program are either employed by or contracted with the Universities which operate the medical or dental schools or employed by or contracted with Cooper University Health Care or University Hospital. This definition includes Rutgers University Behavioral Health Care.

STATE/TERRITORY-New Jersey**

**METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES-OTHER
TYPES OF CARE**

Supplemental Payments for Physician and Professional Services at Qualifying
Professional Services Practices (Con't)

4. Payment Methodology

The supplemental payment will be determined in a manner to bring payments for these services up to the average commercial rate level. The average commercial rate is defined as the rates paid by commercial payers for the same service. Under this methodology the terms physician and physician services include services provided by all qualifying practitioner types as set forth in 2. above. The specific methodology to be used in establishing the supplemental payment for physician services is as follows:

a. For services provided by physicians or other eligible providers meeting the criteria as set forth in "1." above, the state will annually collect from each qualifying provider the practice groups commercial physician fees by CPT code for the groups' top five commercial payers by volume. If qualifying providers do not have five commercial payers the top three commercial payers may be used.

b. The state will annually calculate the average commercial rate for each CPT code for each qualifying provider, as defined under "2." above.

c. The state will collect the Medicaid paid claims history file for the preceding fiscal year for those qualifying providers, as defined under "2." above and sum the amount of the Medicaid payments. The state will align the average commercial rate for each CPT code as determined in "b." above to each Medicaid claim and calculate the amount that would have been paid using the average commercial rate. The resulting amount is summed for all claims. The state will calculate an average commercial rate conversion factor. The average commercial rate conversion factor is the ratio of the sum of the average commercial rate payments to the sum of the Medicaid payments.

19-0002-MA (NJ)

TN: 19-0002-MA (NJ)

Approval Date: June 11, 2019

Supersedes: NEW

Effective Date: January 1, 2019

**STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
STATE/TERRITORY-New Jersey**

**METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES-OTHER
TYPES OF CARE**

Supplemental Payments for Physician and Professional Services at Qualifying
Professional Services Practices (Con't)

d. For each quarter the state will extract paid Medicaid claims for each qualifying provider type, as defined under "2." above for that quarter. Until such time that claims paid under the Office Based Addictions Treatment (OBAT) program are included in the base calculation described in 4c, such claims will be excluded from this extract.

e. The total amount that was paid for those claims is then multiplied by the average commercial rate conversion factor as computed in "4c." above. The amount Medicaid actually paid for those claims is subtracted to establish the supplemental payment amount for the qualifying provider for that quarter.

5. Effective Date of Payment

The supplemental payment will be made effective for services provided on or after January 1, 2019. The procedure codes and fees with appropriate effective dates are located at 4.19B, Page 36 and 36b for additional clarification.

Measure Name	NCQA Definition	Numerator	Denominator	eCQM #	Performance Target Based on 2019 National Medicaid 50th Percentile	Baseline Year	Baseline Statistic	FY2020 Statistic	FY2021 Statistic
Cervical Cancer Screening (CCS-AD)	Percentage of women 21-64 years of age who were screened for cervical cancer using either of the following criteria: a) Women age 21-64 who had cervical cytology performed every 3 years. b) Women age 30-64 who had cervical cytology/human papillomavirus (HPV) co-testing performed every 5 years.	The number of women who were screened for cervical cancer.	Women 24-64 years of age as of the end of the measurement year.	124	60.51	FY2019			
Breast Cancer Screening (BCS-AD)	Percentage of women 50 - 74 years of age who had a mammogram to screen for breast cancer in the 27 months prior to the end of the measurement period.	Women with one or more mammograms during the 27 months prior to the end of the measurement period.	Women 51-74 years of age with a visit during the measurement period	125	58.79	FY2019			
Percentage of Eligibles Who Received Preventive Dental Services (PDENT-CH)	Percentage of individuals ages 1 to 20 who are enrolled in Medicaid or CHIP Medicaid Expansion programs for at least 90 continuous days, are eligible for Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) services, and who received at least one preventive dental service during the reporting period.	The unduplicated number of individuals receiving at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CPT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim. The numerator should be inclusive of services reimbursed directly by the state under fee-for-service, managed care, prospective payment, or any other payment arrangements, or through any other health or dental plans that contract with the state to provide services to Medicaid or CHIP Medicaid expansion beneficiaries, based on an unduplicated paid, unpaid, or denied claim.	The total unduplicated number of individuals ages 1 to 20 who have been continuously enrolled in Medicaid or CHIP Medicaid Expansion programs for at least 90 days and are eligible to receive EPSDT services.	N/A	2 or 3% incremental improvement over self	FY2019			

Please provide your 2019 baseline statistic.

Please add statistics for all related measures for **SFY2020 and SFY2021** to be compared to the 2019 National Target.

For the Cancer screenings:

For the numerator, please pull data from all payers, not just Medicaid Managed Care.

For the denominator, please use Primary Care.

NJ DMAHS defines Primary Care as: All health services furnished through a general practitioner, family physician, internal medicine physician, pediatrician, or nurse practitioner.

A Primary Care Provider (PCP) shall include general/family practitioners, pediatricians, internists, and may include specialist physicians, physician assistants, CNMs, or CNPs/CNSs.

Cervical Cancer Screening:

Numerator: The number of women who were screened for cervical cancer.

Denominator: Women 24-64 years of age as of the end of the measurement year.

Breast Cancer Screening:

Numerator: Women with one or more mammograms during the 27 months prior to the end of the measurement period.

Denominator: Women 51-74 years of age with a visit during the measurement period

Dental Screening/Percentage of Eligibles Who Received Preventive Dental Services:

Numerator: The unduplicated number of individuals receiving at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim. The numerator should be inclusive of services reimbursed directly by the state under fee-for-service, managed care, prospective payment, or any other payment arrangements, or through any other health or dental plans that contract with the state to provide services to Medicaid or CHIP Medicaid expansion beneficiaries, based on an unduplicated paid, unpaid, or denied claim.

Denominator: The total unduplicated number of individuals ages 1 to 20 who have been continuously enrolled in Medicaid or CHIP Medicaid Expansion programs for at least 90 days and are eligible to receive EPSDT services.

Data can be extracted from EMRs.

If the quality measure does not relate to your Practice Plan, please ignore.
