

TRANSITION FROM AP-DRGS TO APR-DRGS FOR INPATIENT HOSPITALS IN NEW JERSEY

TIMING AND NEXT STEPS

The State intends to implement APR-DRG based payment starting with discharge dates beginning on October 1, 2018, and is working closely with the State's Medicaid Management Information Systems (MMIS) vendor Molina and consultants at Mercer to achieve this implementation date.

Division of Medical Assistance and Human Services (DMAHS) has **scheduled a webinar for May 17, 2018 at 11:00am to discuss the Fiscal Impact Analysis** with the industry. All pertinent information including time and call-in information has been sent to each of the New Jersey Acute Care General Hospital Chief Financial Officers via email. There are a limited number of slots available for this webinar, so please contact your CFO for more information.

We are requesting that any and all questions be submitted in writing prior to the webinar so we can compile and formulate comprehensive answers to your questions. Please submit all questions or concerns related to the conversion from AP-DRGs to APR-DRGs to MAHS.hospitalissues@dhs.state.nj.us

The recording of the webinar & Q&A's will be posted after the webinar for future viewing and reference. That information will appear on NJMMIS.com
